Paige,

I'm not super familiar with the Methane Challenge program but I know it's not directly tied to the OOOOa reg. Here is a [Methane Challenge](#) fact sheet I found that might help answer some of your questions.

Alex

Thank you for your quick reply. Can you tell me what the Methane Challenge program is? Is it in anyway connected to the OOOOa reporting requirements?

-Paige

Hi Paige,

NSPS OOOOa regulations can be found at 40 CFR 60.5360a thru 60.5432a (click [here](#)).

There is a draft proposal affecting, among other things, how often a company is required to inspect oil and gas well sites [here](#). Until that is finalized, the regulations above are still in effect.

Right now, EPA is the direct authority of the NSPS OOOO and NSPS OOOOa regulations in North Dakota and on the Fort Berthold Indian Reservation.

If you have any more specific questions, feel free to call or email.

Thanks,

Alex

Comments: Good afternoon, I was wondering if you could provide me with information/documentation regarding the most recent regulations/compliance standards for the monitoring of VOC's on oilwell sites in North Dakota, on and off Tribal land. In particular, I would like to know about the NSPS OOOOa rules and what is being enforced. Thank you very much for your time.
